

## Advantages: unique.

- Ideal for hard-to-reach areas due to its lowest vertical clearance
- Safety as floors dry immediately thanks to front and rear suction
- Constantly high power due to long-lasting lithium-ion batteries
- Efficient hygiene when compared with cleaning using a mop
- Easy to transport and maintain thanks to its sophisticated design

Art. no.	Description
<b>50.021</b>	<b>Discomatic Tango</b> incl. brush housing, suction nozzle, integrated charging device, 2 scrubbing brushes SN and a lithium-ion battery

### Accessories/Consumables

55.999	LiFePo Battery 25.6 V, 20 Ah
55.928	Suction lip front
55.951	Squeegee
55.952	Sealing lip
59.879	Supernylon scrubbing brush *
59.880	Pad drive disk *
51.400	Universal filling hose
22.250	Poly-Pad yellow 170
22.251	Poly-Pad red 170
22.252	Poly-Pad green 170
22.253	Poly-Pad black 170
22.254	Microsol fibre pad 170

\* One machine requires 2 pieces

### Technical data

Theoretical area output	1000 m <sup>2</sup> /h
Practical area output	350 m <sup>2</sup> /h
Working width	340 mm
Fresh water tank	9 liters
Dirty water tank	13 liters
Total weight (including battery)	40 kg
Dimensions (l x w x h)	635 x 450 x 750 – 1110 mm
Operating voltage	24 V
Brush pressure	12 kg/0,3 N/cm <sup>2</sup>
Battery	Lithium-ion 25.6 V, 20 Ah
Operating time	90 min.
Ground clearance	270 mm
Suction width	460 mm

Discomatic Tango  
Small. Strong. Elegant.

**wetrok**<sup>®</sup>

## Discomatic Tango: high performance – both at the front and the back.

The Tango is both elegant and powerful. The Discomatic Tango scrubber-dryer is a high-quality, high-performance machine – both at the front and the back. The cleaning solution features suction at the front as well as the back. The small Discomatic Tango is suitable for cleaning under tables and benches, where no machine has gone before. Thanks to the lithium-ion battery, the power is continuous and constantly high. It is the tango as interpreted by Wetrok: world class, from Switzerland, small but perfectly formed.

### Vertical clearance: low.

Due to the sophisticated design, incorporating far fewer components than conventional scrubber-dryers, and a light, space-saving lithium-ion battery, the Discomatic Tango is incomparably low. It fits easily under benches and low furniture. It turns easily and is thus able to clean in hard-to-reach areas, and leaves everything safely dry thanks to suction at the front and back.

### The result: brilliant.

The humble mop no longer has a place alongside the Discomatic Tango. The compact scrubber-dryer not only does the work faster, but is also much more hygienic. The removable 9 liter tank provide fresh water for every centimeter that you clean.

### The design: unique.

Exceptional. Elegant. Compact. The Discomatic Tango bears the famous signature of Tom Tjaarda. The star designer, who usually designs stylish motor vehicles, has lent his talents to Wetrok.

*Tom Tjaarda*

### Operation: simple.

The Discomatic Tango can be easily adjusted with a simple lever hoist, so that the appropriate height can be set immediately at any time – even during cleaning. Cleaning is thus convenient, easy and fast.

### The battery: lasts and lasts.

The lithium-ion battery always gives a consistently high performance – regardless of whether it is fully or only partially loaded. Its high number of charge cycles means that the battery life is four times longer than that of conventional batteries. Thanks to the intelligent plug-in system, the compact battery can be easily installed and removed.

### Suction: front and back.

The Discomatic Tango leaves everything dry thanks to its powerful suction at the front and the back. The rear suction bar adapts flexibly to the direction of travel, while the front nozzle is straight and remains constant.

### Size: small.

The Tango is small and light thanks to its compact design. It offers an extremely low vertical clearance – specifically designed to clean under furniture and in corners.

### Transport: uncomplicated.

The two tanks can be removed easily and quickly. Transporting the small scrubber-dryer is therefore incomparably easy.

### The power: impressive.

It is easily the smallest and lightest scrub dryer. However, high brush pressure is ensured by two circular brushes. The flexible rear suction lip cleans and dries even hard to reach areas.
